

XOLT — Amazon Seller Analytics Platform

Marketing Website Technical & Developer Documentation · Candidate: Amna Jameel

Executive Summary

This document provides formal developer documentation, architectural breakdown, and brief compliance verification for the **XOLT Marketing Website**, built for the **Authect 2027 Recruitment Challenge**. The project is fully integrated inside the product monorepo at apps/web using Next.js App Router, TailwindCSS, TypeScript, and next-intl for multi-language (RTL) support.

1. Technology Stack & Architecture

Layer	Technology	Details
Framework	Next.js 15+ (App Router)	Monorepo structure inside apps/web
Language	TypeScript (Strict)	0 compilation errors (npx tsc --noEmit)
Styling	Tailwind CSS	Custom dark-mode tokens & CSS Logical Properties for RTL
i18n & Localization	next-intl	English (en), Spanish (es), Arabic (ar) with RTL support
Deployment Target	Vercel (fra1 region)	Unified deployment target alongside product dashboard
SEO & OpenGraph	Next Metadata API	Indexable routes, sitemap.ts, robots.ts, JSON-LD Schema

2. Brief Compliance Matrix

Brief Specification	Status	Implementation Details
One-Line Pitch	PASSED	See real profit per SKU. Know what to change next.
Prescriptive Action Plan	PASSED	Shows dollar impact per recommendation (+\$640/mo potential)
i18n & RTL Support	PASSED	en, es, ar complete with logical CSS properties (ms-, ps-, start-)
Multi-Currency Support	PASSED	Interactive switcher for USD, AED, SAR, and EUR
Official SP-API Focus	PASSED	Explicitly states read-only SP-API, zero buyer PII, no scraping
Required Page Routes	PASSED	All 14 pages (Landing, How-it-works, Pricing, Security, Sub-processors, etc.)
Pricing Tiers	PASSED	Starter (\$29), Pro (\$59), Agency (\$199) with 14-day free trial notes
Security & Vendor List	PASSED	Public /security page and living vendor list on /sub-processors
Company Presence	PASSED	Authect, Dubai, UAE with support@, privacy@, security@, billing@
Footer Compliance	PASSED	Links to Privacy, Terms, Security, Sub-processors, and Contact
320px Responsiveness	PASSED	Verified down to 320px x 498px viewports with zero horizontal overflow
UX Pointer Cursors	PASSED	Global cursor: pointer applied to all buttons, tabs, and range sliders
